

RTD STORAGE

Denver, Colorado

Telecommunications

Great news from Denver....
Fibergrate just completed the latest and greatest site in town - the multi-carrier (Sprint PCS, VoiceStream, and Nextel) location. The site went together well, with a dedicated project manager's supervision, in record time and without a hitch!
Fibergrate is very proud of this high profile job, and compared to almost anything else we have done in the Denver area, this is by far, the best effort to date.

Height: 85'
Structure: Steel
Window openings: Approximately 14' wide x 10' tall
