**Onshore Oil & Gas Solutions**

Having problems finding products that will create safe working environments, while also addressing corrosion and maintenance issues commonly found in the oil and gas industry?

Fibergrate has multiple high performance fiberglass reinforced plastic (FRP) products and engineered composite solutions available that will address your concerns and solve your problems! With Fibergrate, you won’t only have a solution but you will get reassurance from our nearly fifty years of experience manufacturing FRP products.

### Why Fibergrate?

- Corrosion Resistant
- Lightweight - No Heavy Lifting Equipment Needed
- Easy to Fabricate & Install - No Welding Required

### Platforms & Crossovers

`100% FRP except for hardware!`

### Cellar Covers

Fibergrate can cover various size cellars with common size gratings, simple FRP supports can be added for additional strength, and simple clips to adjoin the grating and prevent it from sliding. These will also detach easily if access is needed below.

### Containment Pans

Fibergrate’s containment pans provide a durable, uniform flat surface that allow heavy mobile drilling rigs and other equipment to drive over and set upon. This is also reusable/ moveable and facilitates quick, easy spill removal.
